## Purpose/Background

Medication adherence is largely impacted by patient specific barriers, one of the most crucial being financial constraints of affording medications. There are resources from drug manufacturers and alternative programs to eliminate financial constraint of medication adherence. The resources available include:

1. **Patient assistance program (PAP)** - Drug manufacturers provide medications completely **free of charge** for low-income uninsured or Medicare patients, shipped directly to patients' home, primary care provider (PCP) office, or other designated address (i.e. infusion medications should be mailed to infusion center where patient has confirmed follow-up), depending on program eligibility. Covers almost **ALL** medications
  - a. Documentation required: program specific (none to needing income proof)
  - b. Process time: 2-7 days
2. **Welvista** – state run program, has limited formulary of medications
  - a. Documentation required: requires income documentation for all members of household,
  - b. Process time: 10-14 days
3. **RxOutreach** – nationwide program, has limited formulary for medications not covered by other PAP programs
  - a. Documentation required: None
  - b. Process time: 7-10 days
4. **Copay cards** – typically available to commercially insured patients or one-time uses in certain circumstances (outside the scope of this document)
5. **Walmart \$4.00 prescription list** – limited formulary of medications available at Walmart that may be more affordable via a prescription than at other pharmacies
6. **Care foundations** – foundations set up by donors for financially constrained patients for medications not covered by other programs (limited funds available)

This document encompasses comprehensive access to patient assistance programs (PAP) for almost all medications (see [additional resources](#) for medications not included). Patient eligibility is dependent upon:

- Income level based on the federal poverty limit (FPL), which varies yearly
  - Programs will either require proof of documentation or run electronic income verification (which will **NOT** affect a patient's credit score)
- Insurance status (must be uninsured or Medicare)

This **interactive document (clickable)** will allow for uninsured and low income patients to be enrolled in a patient assistance program and provide them with up to one year of medication **free-of-charge**. Following calendar year from enrollment date, subsequent application will need submitted for re-enrollment.

## How to use MAGIC (document is interactive, clickable)

1. Find desired medication via alphabetical directory or medications by disease state/condition
  - a. TIP: Use CTRL + F to quickly search for medication
2. You will be directed to the manufacturer program eligibility criteria for the selected medication
3. If patient meets criteria, click on the link of individual medication or on “Medications eligible for assistance” (depending on program) to be taken directly to PAP application
4. Complete application and fax to program (excludes Pfizer RxConnect-must apply online or call)

## [Acadia Connect](#)

### Eligibility

US resident

Any income

Uninsured

### Medications eligible for assistance

[NUPLAZID \(pimavanserin\)](#)

1. Patient must call 1-844-737-2233 or enroll online.
2. Acadia connect will contact provider office and provide applications to be completed (patient and provider have portion to complete)
3. Once application is approved, patient will be provided medication for 12 months
  - a. After 12 months, program attempts to have patient enrolled in prescription drug plan

## [ADC Patient Support](#)

### Eligibility

US resident

≤550% FPL

Uninsured or  
underinsured

- Underinsured is deemed as paying ≥20% out of pocket for medication

### Medications eligible for assistance

[Zynlonta \(loncastuximab tesirine\)](#)

## AMGEN safety net program

### Eligibility

US resident

≤300-450% FPL

Uninsured or plan excludes AMGEN product

| Each additional person | 16,140                                                |

Medicare patients with financial constraints can **apply if they have spent 3% of annual household income** on out-of-pocket prescription expenses. Bristol Myers Squibb does subtract insurance charge from total cost (i.e. if insurance copay would be \$400 and patient's out of pocket spend to meet 3% is \$425, the patient only needs to spend \$25 at the pharmacy before being approved)

- As of 2026 – ALL Medicare recipients, even if patient only has Medicare A&B, will need to spend 3% out of pocket of total income before program will consider patient

Applications will be processed more quickly if income documentation included:

- 1099 forms
- Social security statement
- Pension statements
- Two consecutive pay stubs

### Program details

- Single application can include up to 3 Merck products and can be completed online as of 2025
- Each prescription cannot exceed a 90-day supply at a time with a maximum of 3 refills
- New application needed every 12 months

## MyPraluent Patient Assistance Program

| Eligibility |                                      |                       |
|-------------|--------------------------------------|-----------------------|
| US resident | $\geq 135\%$ FPL<br>$\leq 300\%$ FPL | Uninsured or Medicare |

- [Commercially insured patients](#) copay card

| Household size         | Annual household income (\$) threshold<br>( $\leq 300\%$ FPL) |
|------------------------|---------------------------------------------------------------|
| 1                      | 47,880                                                        |
| 2                      | 64,920                                                        |
| 3                      | 81,960                                                        |
| 4                      | 99,000                                                        |
| Each additional person | 16,140                                                        |

- Must be above 135% FPL, as patient would then qualify for LIS but below 300% FPL
- Proof of income may be asked for, which needs provided within 30 days of request
- Medicare Part D beneficiaries must spend \$500 out of pocket on prescriptions before considered eligible
- [Can apply online](#)

- Ineligible for Medicaid
- Ineligible for Medicare Part D **with Full Low Income Subsidy (FLIS)**

## **Risk of termination**

- Not responding to SC ADAP letters in timely fashion

[RETURN TO TOP](#)

- Failing to submit recertification documentation on time
- Income exceeds 550% FPL
- Stops taking medication as prescribes
- Qualifies for Medicaid or Medicare Part D with FLIS
- Moves out of SC or incarcerated

## Required documentation

- Proof of income is required for the enrollee and for each member of the household listed on the form

### Income Documentation

Documentation for income includes the following:

- |                                     |                              |                                 |
|-------------------------------------|------------------------------|---------------------------------|
| • Salaries                          | • Business profits           | • Veterans Benefits             |
| • Wages                             | • Rents, Interest, Dividends | • Social Security cash benefits |
| • Net earnings from self-employment | • Unemployment compensation  | • Workers compensation          |
| • Royalties and Commissions         | • Scholarships               | • Alimony                       |
| • Tips                              | • Child support              |                                 |

- Most current pay stubs, W2, Federal Tax return, pension, unemployment compensation, social security benefits, alimony, child support, worker's compensation, wage statement, or employer letter on company letterhead dated, signed and including salary information are all acceptable
- [Separate form for Zero or No Income certification](#)

- Clinical data

- Date of diagnosis
- Most recent CD4 count
- Most recent viral load

- [Pharmacy selection form](#)

- Participating pharmacies:

- ☐ AIDS Healthcare Foundation Pharmacy – 3025 Farrow Road; Columbia, SC 29203
- ☐ CarePlus Pharmacy – mail order pharmacy located in Columbia, SC
- ☐ Easley Healthmart Pharmacy - 401 Hillcrest Drive; Easley, SC 29640
- ☐ Hawthorne Pharmacy – 2761 Laurel Street; Columbia, SC
- ☐ Hawthorne Pharmacy – 1520-A Taylor Street; Columbia, SC
- ☐ Long's Drug Store – 600 Kilbourne Road; Columbia, SC
- ☐ Long's Drug Store – 1216 W Main Street; Lexington, SC
- ☐ MedExpress – mail order pharmacy located in Salisbury, NC
- ☐ PANTHERx Specialty Pharmacy – mail order pharmacy located in Pittsburgh, PA
- ☐ Pharmacy Innovations - 620 Congaree Road, Suite F; Greenville, SC
- ☐ Responsive Solutions – 4605 Oleander Drive, Suite 5; Myrtle Beach, SC

| Combivir                                                  | lamivudine / zidovudine                                      | NRTI                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Complera                                                  | emtricitabine / rilpivirine / tenofovir disoproxil fumarate  | Combination Treatment | Indicated as a complete regimen for treatment of HIV-1 infection: 1) In patients 12 years of age and older with no antiretroviral treatment history and with HIV-1 RNA less than or equal to 100,000 copies/mL at the start of therapy and 2) In certain virologically suppressed (HIV-1 RNA <50 copies/mL) patients on a stable antiretroviral regimen at start of therapy in order to replace their current antiretroviral treatment regimen.                                                                                                                                                                          |
| Delstrigo                                                 | doravirine / lamivudine/ tenofovir disoproxil fumarate       | Combination Treatment | Product carries a boxed warning regarding the risk of post-treatment acute exacerbations of hepatitis B. Contraindicated when co-administered with drugs that are strong cytochrome P450 3A enzyme inducers (decreases in doravirine plasma concentrations may occur which may decrease the product's effectiveness). Refer to the package insert for concurrently administered drugs to avoid. Precautions include new onset or worsening renal impairment, risk of adverse reactions or loss of virologic response due to drug interactions, bone loss and mineralization defects, and Immune Reconstitution Syndrome. |
| Descovy                                                   | emtricitabine /tenofovir alafenamide                         | NRTI                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Dovato                                                    | dolutegravir / lamivudine                                    | Combination Treatment | Dovato carries a Boxed Warning for patients co-infected with hepatitis B virus (HBV) and HIV-1. Prior to initiating treatment, patients should be tested for HBV infection. The emergence of HBV variants associated with resistance to lamivudine has been reported in HIV-1-infected patients who have received lamivudine-containing antiretroviral regimens in the presence of concurrent infection with HBV. In addition, severe exacerbations of HBV have been reported in patients co-infected with HIV-1 and HBV who have discontinued lamivudine.                                                               |

## **Re-enrollment information per PAP program**

### **AbbVie**

- Submit same application and process
- Company does send application in mail for Medicare patients

### **Amgen**

- Company will send application for patients already enrolled

### **AstraZeneca**

- NOT automatically re-enrolling Medicare patients for 2024. An attempted electronic income verification was made by company with new 2023 cutoffs of 300% FPL for continued eligibility. If <300% FPL fax was sent to provider about continued enrollment.

- If electronic income verification was inconclusive, a new application for 2024 is required
- Each patient will need new prescription e-scribed

### **Bausch Health**

- The program requires that you re-enroll every year by completing a Bausch Health Patient Assistance Program application form. A notice regarding re-enrollment will be sent to you 60 days prior to the anniversary date of your participation in the program or, in some cases, by December 31.

### **Boehringer Ingelheim**

- Re-enrollment forms are sent out after October 15<sup>th</sup> to the patient's home

### **Bristol Myers Squibb**

- Beginning in November, a new application will be mailed to the patient and the provider office will be faxed that it is time to re-enroll patient
- Re-enrollment application is the same as initial application

end on 12/31/2022. Attached to this fax is a renewal application. We have also mailed a copy of the application to your patient.

If your patient would like to reapply for assistance from the BMSPAF:

- Please ensure the application is completed, signed, and dated, and that all requested documentation is included, such as proof of income and, for Medicare enrollees, out-of-pocket prescription expenses.
- Incomplete applications will result in processing delays.
- No later than 30 days from the date of this letter, please return completed and signed applications to BMSPAF:
  - By fax: (800) 736-1611
  - By U.S. Mail: BMSPAF, PO BOX 220769, Charlotte, NC 28222-0769

*The submission of the application and documentation is not a guarantee that we will continue to provide medicine to your patient. Our program rules are subject to change without notice at any time.*

If your patient is enrolled in a Medicare Plan:

- They may not be eligible for the BMSPAF in 2023 until they have spent 3% of their annual household income on prescription medications (for the entire household) in 2023.

How we prioritize our review of applications at the beginning of the year (January—March):

- Applications will be prioritized for review based on the patient's projected date of service/refill due date.
- For the rest of the year, we will prioritize by the date complete applications are received.

Please note that BMSPAF is not responsible for providing medication for missed dates of service and/or missed refills due to late submissions or incomplete applications.

- Medicare part D patients **will need to spend 3%** out of pocket on prescriptions each calendar year

### **GlaxoSmithKline (GSK)**

- Company will send out re-enrollment forms to patient's home 2 months prior to enrollment period end date
- Patients with Medicare Part D need to re-apply to the GSK Patient Assistance Program each calendar year after they have spent at least \$600 on prescription medicines through their Medicare Part D Prescription Drug Plan.
  - Fax or mail your completed enrollment form and documents to the GSK Patient Assistance Program. Faxed prescriptions are only valid if faxed directly from a physician's office. Applicant's name and date of birth must be on each faxed page.
  - If you are eligible for continued assistance through the GSK Patient Assistance Program, your first refill will automatically be sent to the address provided on the application.

### **Johnson & Johnson**

- All patients up for renewal will receive an application approximately one month prior to enrollment end date, which include pre-filled patient and provider information
  - Renewal application is otherwise identical to initial application
- Medicare part D patients **will need to spend 4%** out of pocket on prescriptions each calendar year

### **Lilly**

- Letter will be sent to patient only notifying them that it is time to renew 2.5-3 months before enrollment end date
- Application is the same as initial enrollment application
- Medicare patients can start re-enrollment November 2<sup>nd</sup> for the following calendar year

## Merck

- Every patient must submit renewal application, which is same as original application
- Renewal application for Medicare patients sent out by company if requested and has two questions in addition to a new application
  - Signature for financial hardship
  - Yes or no for Medicare B or D
- Cannot be submitted until December

## MyPraluent

- Re-enrollment process is completion of a new original application
  - Company does **NOT** send a renewal application to patients
- Approval through December 31<sup>st</sup> for Medicare beneficiaries, 365 days for uninsured patients

## Mylan (Viatris)

- Renewal application is the same as original application
- Can submit renewal application 4-6 weeks prior to enrollment end date, which is 365 days from date approved

## Nestle Health

- Will need to reapply about 30 days from your application expiration date; company will send a reminder letter in the mail when it is time to reapply
- Medicare patients will need to reapply after open enrollment annually

## Novartis

- Patient will receive re-enrollment application 45 days prior to enrollment end date
- Providers office will be faxed same day re-enrollment application is sent in the mail
- Re-enrollment application is the same as the original application

Our records indicate that your patient(s) listed on the following page are enrolled in the NPAF and their enrollment will expire on **December 31st**.

Please note the following:

| Who        | Actions Needed                                                                                                                                                            | Received by NPAF before |                     |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|---------------------|
| Prescriber | Complete and sign your portion of the NPAF application                                                                                                                    | December 15             | Fax: 1-855-817-2711 |
|            | Include a <u>separate</u> 12-month prescription with 90-day supply when you fax your portion of the NPAF application                                                      |                         |                     |
|            | If your patient(s) has insurance and their policy requires a Prior Authorization (PA), you will need to attach the PA Appeal Denial with your portion of the application. |                         |                     |
| Patient    | Your patient needs to complete their portion of the NPAF application including providing proof of income and copies of insurance cards                                    | December 15             |                     |

Go to [www.PAP.Novartis.com](http://www.PAP.Novartis.com). To download an PDF of the English or Spanish application.

If you or your staff have any questions, please call NPAF's dedicated healthcare provider line at 1-800-277-2254 option 2, Monday through Friday, 8:00 am to 8:00 pm ET.

Sincerely,  
Novartis Patient Assistance Foundation, Inc.

Attached Documents: NPAF Application

1. Press 1
2. Press 1 to start new refill request
3. Enter 10 digit prescription number
  - If prescription number not available press 1
    1. Enter 10 digit phone number (###-###-####) associated with account
      1. If additional help is needed, press 1 to speak with representative

## Pfizer

1. Say name of medication calling about
2. Say patient
3. Say no for calling about enrollment status
4. Patient will be connected to representative to request refill

---

## COPAY ASSISTANCE

### Updates for Medicare D patients January 2023

Beginning in 2023, under the Inflation Reduction Act (Medicare Part D Insulin Savings), which provides insulin savings, **capping monthly cost at \$35 for Seniors who have Medicare Part D**. This ensures a predictable, stable copay, regardless of phase including the donut hole.

This cap goes into effect January 1, 2023 and extends to all Part D plans. Unlike its predecessor, Medicare Part D Senior Savings Model, as a patient, you will automatically have access to these savings and will no longer need to enroll in a program.

[RETURN TO TOP](#)

If eligible for Extra Help, you will pay no more than \$10.35 for a monthly supply.
