Purpose/Background

Medication adherence is largely impacted by patient specific barriers, one of the most crucial being financial constraints of affording medications. There are resources from drug manufacturers and alternative programs to eliminate financial constraint of medication adherence. The resources available include:

1. **Patient assistance program (PAP)** - Drug manufacturers provide medications completely **free of charge** for low-income uninsured or Medicare patients, shipped directly to patients' home, primary care provider (PCP) office, or other designated address (i.e. infusion medications should be mailed to infusion center where patient has confirmed follow-up), depending on program eligibility. Covers almost **ALL** medications
 - a. Documentation required: program specific (none to needing income proof)
 - b. Process time: 2-7 days
2. **Welvista** – state run program, has limited formulary of medications
 - a. Documentation required: requires income documentation for all members of household,
 - b. Process time: 10-14 days
3. **RxOutreach** – nationwide program, has limited formulary for medications not covered by other PAP programs
 - a. Documentation required: None
 - b. Process time: 7-10 days
4. **Copay cards** – typically available to commercially insured patients or one-time uses in certain circumstances (outside the scope of this document)
5. **Walmart \$4.00 prescription list** – limited formulary of medications available at Walmart that may be more affordable via a prescription than at other pharmacies
6. **Care foundations** – foundations set up by donors for financially constrained patients for medications not covered by other programs (limited funds available)

This document encompasses comprehensive access to patient assistance programs (PAP) for almost all medications (see [additional resources](#) for medications not included). Patient eligibility is dependent upon:

- Income level based on the federal poverty limit (FPL), which varies yearly
 - Programs will either require proof of documentation or run electronic income verification (which will **NOT** affect a patient's credit score)
- Insurance status (must be uninsured or Medicare)

This **interactive document (clickable)** will allow for uninsured and low income patients to be enrolled in a patient assistance program and provide them with up to one year of medication **free-of-charge**. Following calendar year from enrollment date, subsequent application will need submitted for re-enrollment.

How to use MAGIC (document is interactive, clickable)

1. Find desired medication via alphabetical directory or medications by disease state/condition
 - a. TIP: Use CTRL + F to quickly search for medication
2. You will be directed to the manufacturer program eligibility criteria for the selected medication
3. If patient meets criteria, click on the link of individual medication or on “Medications eligible for assistance” (depending on program) to be taken directly to PAP application
4. Complete application and fax to program (excludes Pfizer RxConnect-must apply online or call)

ALPHABETICAL LIST OF ALL MEDICATIONS

A-E

Abilify Maintena (Aripiprazole) For Extended Release Injectable SUSPension
Abilify Asimtufii (aripiprazole) extended-release injectable suspension
Abraxane® (Paclitaxel Protein-Bound Particles For Injectable SUSPension (Albumin-Bound))
ABRYSVO™ (Respiratory Syncytial Virus Vaccine)
ACANYA® (clindamycin phosphate and benzoyl peroxide) Gel, 1.2% or 2.5%, for Topical
Actemra (Tocilizumab)
Activase (Alteplase)
Acuvail (Ketorolac Tromethamine) Ophthalmic Solution

[Bristol Myers Squibb](#)

Eligibility		
US resident	<300% FPL	Uninsured or Medicare

Household size	Annual household income (\$) threshold (≤300% FPL)
1	47,880
2	64,920
3	81,960
4	99,000
5	116,040
Each additional person	16,140

Medicare patients with financial constraints can **apply if they have spent 3% of annual household income on out-of-pocket prescription expenses**. Bristol Myers Squibb does subtract insurance charge from total cost (i.e. if insurance copay would be \$400 and patient's out of pocket spend to meet 3% is \$425, the patient only needs to spend \$25 at the pharmacy before being approved)

- **As of 2026 – ALL Medicare recipients, even if patient only has Medicare A&B, will need to spend 3% out of pocket of total income before program will consider patient**

Applications will be processed more quickly if income documentation included:

1. 1099 forms
2. Social security statement
3. Pension statements
4. Two consecutive pay stubs

HIV Resources for South Carolina

[South Carolina Aids Drug Assistance Program \(ADAP\)](#), which reimburses 100% of cost for qualifying patients

- Three services
 1. Direct dispensing program (DDP)
 - a. Receive HIV medication directly through mail-order pharmacy (PANTHERx Specialty)
 2. Insurance Assistance program (IAP)
 - a. Fill medications through health insurance, program assists with premiums, copays, and deductibles through network of approved pharmacies
 3. Medicare D assistance program
 - a. Receive HIV medication directly through mail-order pharmacy (PANTHERx Specialty)

Qualifications

- Ready to make commitment to being adherent to pharmacotherapy
- Diagnosed with HIV/AIDS
- SC resident
- Limited income ($\leq$ 550% of FPL)

Household size	Annual household income (\$) threshold
1	74,745
2	100,705
3	126,665
4	152,625
5	178,585
6	204,545
7	230,505
8	256,465

[Click for FPL for household larger than 8](#)

- Ineligible for Medicaid
- Ineligible for Medicare Part D **with Full Low Income Subsidy (FLIS)**

Risk of termination

[RETURN TO TOP](#)

- Not responding to SC ADAP letters in timely fashion
- Failing to submit recertification documentation on time
- Income exceeds 550% FPL
- Stops taking medication as prescribed
- Qualifies for Medicaid or Medicare Part D with FLIS
- Moves out of SC or incarcerated

Required documentation

- Proof of income is required for the enrollee and for each member of the household listed on the form

Income Documentation

Documentation for income includes the following:

- | | | |
|-------------------------------------|------------------------------|---------------------------------|
| • Salaries | • Business profits | • Veterans Benefits |
| • Wages | • Rents, Interest, Dividends | • Social Security cash benefits |
| • Net earnings from self-employment | • Unemployment compensation | • Workers compensation |
| • Royalties and Commissions | • Scholarships | • Alimony |
| • Tips | • Child support | |

- Most current pay stubs, W2, Federal Tax return, pension, unemployment compensation, social security benefits, alimony, child support, worker's compensation, wage statement, or employer letter on company letterhead dated, signed and including salary information are all acceptable
 - [Separate form for Zero or No Income certification](#)
- Clinical data
 - Date of diagnosis
 - Most recent CD4 count
 - Most recent viral load
- [Pharmacy selection form](#)
 - Participating pharmacies:

- ☐ AIDS Healthcare Foundation Pharmacy – 3025 Farrow Road; Columbia, SC 29203
- ☐ CarePlus Pharmacy – mail order pharmacy located in Columbia, SC
- ☐ Easley Healthmart Pharmacy - 401 Hillcrest Drive; Easley, SC 29640
- ☐ Hawthorne Pharmacy – 2761 Laurel Street; Columbia, SC
- ☐ Hawthorne Pharmacy – 1520-A Taylor Street; Columbia, SC
- ☐ Long's Drug Store – 600 Kilbourne Road; Columbia, SC
- ☐ Long's Drug Store – 1216 W Main Street; Lexington, SC
- ☐ MedExpress – mail order pharmacy located in Salisbury, NC
- ☐ PANTHERx Specialty Pharmacy – mail order pharmacy located in Pittsburgh, PA
- ☐ Pharmacy Innovations - 620 Congaree Road, Suite F; Greenville, SC
- ☐ Responsive Solutions – 4605 Oleander Drive, Suite 5; Myrtle Beach, SC

- Full list of pharmacies available below:
https://scdhec.gov/sites/default/files/media/document/IAP-Participating-Rx_8_2021.pdf

Undocumented patients living in SC with HIV

- There is a form that can be filled out for undocumented patients to qualify for the program:
<https://scdhec.gov/sites/default/files/media/document/d-1593.pdf>

All patients will need to fill out recertification form annually

AIDS Drug Assistance Program (ADAP) Formulary

HIV ANTIRETROVIRAL DRUGS

Brand	Generic	Drug Class	Additional considerations
Aptivus	Tipranavir	Protease Inhibitor	
Biktarvy	bictegravir / emtricitabine / tenofovir alafenamide fumarate	Combination Treatment	Before prescribing, refer to the drug's full prescribing information.
Cimduo	lamivudine/tenofovir disoproxil fumarate	NRTI	Product carries a boxed warning for post-treatment acute exacerbations of hepatitis B.
Combivir	lamivudine / zidovudine	NRTI	
Complera	emtricitabine / rilpivirine / tenofovir disoproxil fumarate	Combination Treatment	Indicated as a complete regimen for treatment of HIV-1 infection: 1) In patients 12 years of age and older with no antiretroviral treatment history and with HIV-1 RNA less than or equal to 100,000 copies/mL at the start of therapy and 2) In certain virologically suppressed (HIV-1 RNA <50 copies/mL) patients on a stable antiretroviral regimen at start of therapy in order to replace their current antiretroviral treatment regimen.
Delstrigo	doravirine / lamivudine/ tenofovir disoproxil fumarate	Combination Treatment	Product carries a boxed warning regarding the risk of post-treatment acute exacerbations of hepatitis B. Contraindicated when co-administered with drugs that are strong cytochrome P450 3A enzyme inducers (decreases in doravirine plasma concentrations may occur which may decrease the product's effectiveness). Refer to the package insert for concurrently administered drugs to avoid. Precautions include new onset or worsening renal impairment, risk of adverse reactions or loss of virologic response due to drug interactions, bone loss and mineralization defects, and Immune Reconstitution Syndrome.
Descovy	emtricitabine / tenofovir alafenamide	NRTI	
Dovato	dolutegravir / lamivudine	Combination Treatment	Dovato carries a Boxed Warning for patients co-infected with hepatitis B virus (HBV) and HIV-1. Prior to initiating treatment, patients should be tested for HBV infection. The emergence of HBV variants associated with resistance to lamivudine has been reported in HIV-1-infected patients who have received lamivudine-containing antiretroviral regimens in the presence of concurrent infection with HBV. In addition, severe exacerbations of HBV have been reported in patients co-infected with HIV-1 and HBV who have discontinued lamivudine.
Edurant	Rilpivirine	NNRTI	
efavirenz / emtricitabine / tenofovir disoproxil fumarate	efavirenz / emtricitabine / tenofovir disoproxil fumarate	Combination Treatment	Removed February 2022: Gilead Sciences discontinued the manufacturing of Atripla in July 2021. It is no longer available for commercial sale.
Emtriva	Emtricitabine	NRTI	
Epivir	Lamivudine	NRTI	
Epzicom			Before adding an abacavir-containing medication to the drug regimen, refer to the drug's full prescribing information.

[RETURN TO TOP](#)

	abacavir/ lamivudine	NRTI	
Evotaz	atazanavir / cobicistat	Combination Treatment	
Fuzeon	Enfuvirtide	Fusion Inhibitor	Prior authorization required for an individual's first ADAP prescription for this drug.
Genvoya	elvitegravir / cobicistat / emtricitabine / tenofovir alafenamide	Combination Treatment	
Intelence	Etravirine	NNRTI	
Invirase	Saquinavir	Protease Inhibitor	
Isentress, Isentress HD	Raltegravir	Integrase Inhibitor	
Juluca	dolutegravir / rilpivirine	Combination Treatment	Clinical information regarding dolutegravir: At this point, women with HIV who wish to become pregnant and are currently receiving dolutegravir should be switched to a regimen with a more well-defined safety record in pregnancy. Women with HIV who are of childbearing age and are not interested in having children should be counseled about this information. Women who become pregnant while on dolutegravir need to discuss options with their HIV providers.
Kaletra	lopinavir / ritonavir	Protease Inhibitor	
Lexiva	Fosamprenavir	Protease Inhibitor	
Norvir	Ritonavir	Protease Inhibitor	
Odefsey	emtricitabine / rilpivirine / tenofovir alafenamide fumarate	Combination Treatment	Indicated as a complete regimen for treatment of HIV-1 infection in patients 12 years of age and older as initial therapy in those with no antiretroviral treatment history with HIV-1 RNA less than or equal to 100,000 copies per mL; or to replace a stable antiretroviral regimen in those who are virologically suppressed (HIV-1 RNA less than 50 copies per mL) for at least six months with no history of treatment failure and no known substitutions associated with resistance to individual components of Odefsey.
Pifeltro	Doravirine	NNRTI	Contraindicated when co-administered with drugs that are strong cytochrome P450 3A enzyme inducers. Decreases in doravirine plasma concentrations may occur which may decrease the product's effectiveness. Refer to the package insert for concurrently administered drugs to avoid. Other warnings and precautions include risk of adverse reactions or loss of virologic response due to drug interactions and Immune Reconstitution Syndrome.
Prezcobix	darunavir / cobicistat	Combination Treatment	
Prezista	Darunavir	Protease Inhibitor	
Retrovir	Zidovudine	NRTI	
Reyataz	Atazanavir	Protease Inhibitor	
Rukobia	Fostemsavir	GP120 Attachment Inhibitor	
Selzentry	Maraviroc	CCR5 Co-Receptor Antagonist	Prior authorization required for an individual's first ADAP prescription for this drug.
Stribild	elvitegravir / cobicistat / emtricitabine / tenofovir disoproxil fumarate	Combination Treatment	
Sustiva	Efavirenz	NNRTI	
Symfi Symfi Lo	efavirenz / lamivudine / tenofovir disoproxil fumarate	Combination Treatment	Product carries a boxed warning for post-treatment acute exacerbations of hepatitis B.
	darunavir / cobicistat / emtricitabine / tenofovir alafenamide	Combination Treatment	

[RETURN TO TOP](#)

Symtuza			
Tivicay	Dolutegravir	Integrase Inhibitor	Clinical information regarding dolutegravir: At this point, women with HIV who wish to become pregnant and are currently receiving dolutegravir should be switched to a regimen with a more well-defined safety record in pregnancy. Women with HIV who are of childbearing age and are not interested in having children should be counseled about this information. Women who become pregnant while on dolutegravir need to discuss options with their HIV providers.
Triumeq	abacavir / dolutegravir / lamivudine	Combination Treatment	Before adding an abacavir-containing medication to the drug regimen, refer to the full prescribing information. Clinical information regarding dolutegravir: At this point, women with HIV who wish to become pregnant and are currently receiving dolutegravir should be switched to a regimen with a more well-defined safety record in pregnancy. Women with HIV who are of childbearing age and are not interested in having children should be counseled about this information. Women who become pregnant while on dolutegravir need to discuss options with their HIV providers.
Trizivir	abacavir / lamivudine / zidovudine	NRTI	Before adding an abacavir-containing medication to the drug regimen, refer to the drug's full prescribing information.
Trogarzo	Ibalizumab-uiyk	CD4 post-attachment HIV-1 inhibitor	Prior authorization is required for this medication. To initiate the process, please go through the Theratechnologies THERA patient support® program. Go to the website listed below and click on "I am a Healthcare Provider" and choose the Trogarzo button. Then, look to the right of the next page for the Trogarzo Enrollment Form.
Truvada	emtricitabine / tenofovir disoproxil fumarate	NRTI	
Tybost	Cobicistat	Boosting Agent	Tybost should not be used with cobicistat-containing drugs such as Evotaz, Prezcobix, or Stribild. Tybost in combination with lopinavir/ritonavir or regimens containing ritonavir is not recommended due to similar effects of Tybost and ritonavir on CYP3A. Refer to the product's full prescribing information at https://www.gilead.com/science-and-medicine/medicines
Videx, Videx EC	Didanosine	NRTI	
Viracept	Nelfinavir	Protease Inhibitor

Re-enrollment information per PAP program

AbbVie

- Submit same application and process
- Company does send application in mail for Medicare patients

Amgen

- Company will send application for patients already enrolled

AstraZeneca

- NOT automatically re-enrolling Medicare patients for 2024. An attempted electronic income verification was made by company with new 2023 cutoffs of 300% FPL for continued eligibility. If <300% FPL fax was sent to provider about continued enrollment.
 - If electronic income verification was inconclusive, a new application for 2024 is required
- Each patient will need new prescription e-scribed

Bausch Health

- The program requires that you re-enroll every year by completing a Bausch Health Patient Assistance Program application form. A notice regarding re-enrollment will be sent to you 60 days prior to the anniversary date of your participation in the program or, in some cases, by December 31.

Boehringer Ingelheim

- Re-enrollment forms are sent out after October 15th to the patient's home

Bristol Myers Squibb

- Beginning in November, a new application will be mailed to the patient and the provider office will be faxed that it is time to re-enroll patient
- Re-enrollment application is the same as initial application

end on 12/31/2022. Attached to this fax is a renewal application. We have also mailed a copy of the application to your patient.

If your patient would like to reapply for assistance from the BMSPAF:

- Please ensure the application is completed, signed, and dated, and that all requested documentation is included, such as proof of income and, for Medicare enrollees, out-of-pocket prescription expenses.
- Incomplete applications will result in processing delays.
- No later than 30 days from the date of this letter, please return completed and signed applications to BMSPAF:
 - By fax: (800) 736-1611
 - By U.S. Mail: BMSPAF, PO BOX 220769, Charlotte, NC 28222-0769

The submission of the application and documentation is not a guarantee that we will continue to provide medicine to your patient. Our program rules are subject to change without notice at any time.

If your patient is enrolled in a Medicare Plan:

- They may not be eligible for the BMSPAF in 2023 until they have spent 3% of their annual household income on prescription medications (for the entire household) in 2023.

How we prioritize our review of applications at the beginning of the year (January—March):

- Applications will be prioritized for review based on the patient's projected date of service/refill due date.
- For the rest of the year, we will prioritize by the date complete applications are received.

Please note that BMSPAF is not responsible for providing medication for missed dates of service and/or missed refills due to late submissions or incomplete applications.

- Medicare part D patients **will need to spend 3%** out of pocket on prescriptions each calendar year

GlaxoSmithKline (GSK)

- Company will send out re-enrollment forms to patient's home 2 months prior to enrollment period end date
- Patients with Medicare Part D need to re-apply to the GSK Patient Assistance Program each calendar year after they have spent at least \$600 on prescription medicines through their Medicare Part D Prescription Drug Plan.
 - Fax or mail your completed enrollment form and documents to the GSK Patient Assistance Program. Faxed prescriptions are only valid if faxed directly from a physician's office. Applicant's name and date of birth must be on each faxed page.
 - If you are eligible for continued assistance through the GSK Patient Assistance Program, your first refill will automatically be sent to the address provided on the application.

Johnson & Johnson

- All patients up for renewal will receive an application approximately one month prior to enrollment end date, which include pre-filled patient and provider information
 - Renewal application is otherwise identical to initial application
- Medicare part D patients **will need to spend 4%** out of pocket on prescriptions each calendar year

Lilly

- Letter will be sent to patient only notifying them that it is time to renew 2.5-3 months before enrollment end date
- Application is the same as initial enrollment application
- Medicare patients can start re-enrollment November 2nd for the following calendar year

Merck

- Every patient must submit renewal application, which is same as original application
- Renewal application for Medicare patients sent out by company if requested and has two questions in addition to a new application
 - Signature for financial hardship
 - Yes or no for Medicare B or D
- Cannot be submitted until December

MyPraluent

- Re-enrollment process is completion of a new original application
 - Company does **NOT** send a renewal application to patients
- Approval through December 31st for Medicare beneficiaries, 365 days for uninsured patients

Mylan (Viatris)

- Renewal application is the same as original application
- Can submit renewal application 4-6 weeks prior to enrollment end date, which is 365 days from date approved

Nestle Health

- Will need to reapply about 30 days from your application expiration date; company will send a reminder letter in the mail when it is time to reapply
- Medicare patients will need to reapply after open enrollment annually

Novartis

- Patient will receive re-enrollment application 45 days prior to enrollment end date
- Providers office will be faxed same day re-enrollment application is sent in the mail
- Re-enrollment application is the same as the original application

Our records indicate that your patient(s) listed on the following page are enrolled in the NPAF and their enrollment will expire on **December 31st**.

Please note the following:

Who	Actions Needed	Received by NPAF before	
Prescriber	Complete and sign your portion of the NPAF application Include a <u>separate</u> 12-month prescription with 90-day supply when you fax your portion of the NPAF application If your patient(s) has insurance and their policy requires a Prior Authorization (PA), you will need to attach the PA Appeal Denial with your portion of the application.	December 15	Fax: 1-855-817-2711
Patient	Your patient needs to complete their portion of the NPAF application including providing proof of income and copies of insurance cards	December 15	

Go to www.PAP.Novartis.com. To download an PDF of the English or Spanish application.

If you or your staff have any questions, please call NPAF's dedicated healthcare provider line at 1-800-277-2254 option 2, Monday through Friday, 8:00 am to 8:00 pm ET.

Sincerely,
Novartis Patient Assistance Foundation, Inc.

Attached Documents: NPAF Application

Novo Nordisk

- Re-enrollment can begin 30 days prior to the end of enrollment end date or after October 15th for Medicare patients
 - Medicare part D patients are approved for calendar year, uninsured or Medicare part A/B are approved for 365 days

- Re-enrollment application is identical to original application
- Company typically sends application for renewal by mail to patient's house

Otsuka

- Patients need to reapply 30-45 days prior to enrollment end date
 - Medicare patients: December 31st
 - Uninsured patients: 365 days
- Company will reach out to patient via telephone to discuss re-enrollment each year

Pfizer

- Medicare patients can begin reapplying in October for the subsequent calendar year
- Company does **NOT** send renewal reminder or application
- Re-enrollment application is the same as the original

Sanofi

- Medicare patients **CANNOT** reapply until January of the calendar year they are applying for
- Uninsured patients can apply for re-enrollment 60 days prior to enrollment end date
 - Uninsured patients enrollment end date is 365 days, Medicare through end of the calendar year

Pfizer

1. Say name of medication calling about
2. Say patient
3. Say no for calling about enrollment status
4. Patient will be connected to representative to request refill

COPAY ASSISTANCE

Updates for Medicare D patients January 2023

Beginning in 2023, under the Inflation Reduction Act (Medicare Part D Insulin Savings), which provides insulin savings, **capping monthly cost at \$35 for Seniors who have Medicare Part D**. This ensures a predictable, stable copay, regardless of phase including the donut hole.

[RETURN TO TOP](#)

This cap goes into effect January 1, 2023 and extends to all Part D plans. Unlike its predecessor, Medicare Part D Senior Savings Model, as a patient, you will automatically have access to these savings and will no longer need to enroll in a program.

If eligible for Extra Help, you will pay no more than \$10.35 for a monthly supply.

Diabetes Copay Cards for Uninsured Patients
